Multiple Intelligences Assessment Handout

Howard Gardner, an American developmental psychologist once said, "It's not how smart you are...it's **how** you are smart." He believes that everyone is smart in different ways and in different areas. He identified 8 different forms of "intelligences."

① Take the **Multiple Intelligences Assessment** at: <http://www.edutopia.org/multiple-intelligences-assessment> to discover more about how you best learn and process information. Once you have taken your assessment, complete the chart below with your results:

	Learning Style	My Percentage
	Linguistic	%
	Logical-Mathematical	%
	Visual-Spatial	%
	Intrapersonal	%
	Interpersonal	%
	Musical	%
	Bodily-Kinesthetic	%
	Naturalistic	%

🌐 Visit this link: <http://www.edutopia.org/your-multiple-intelligences#vi> for a brief explanation of the different learning styles. ① After you have read the explanations for each learning style, respond to the questions below.

1. For which learning style did you score the highest percentage?

2. For which learning style did you score the lowest percentage?

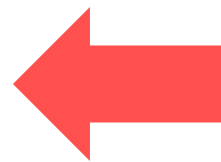

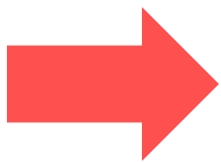

3. Do you agree with the results of the assessment? **Explain.**
